BE IT ORDERED, THAT THE CITY COUNCIL ADOPT THE ATTACHED RESOLUTION TITLED "A RESOLUTION ADOPTING THE ZERO WASTE GUIDING PRINCIPLE AND SUPPORTING THE CREATION OF A CITY-WIDE PLAN FOR ZERO WASTE"

RE: Zero Waste Resolution

Dear Council Members:

Attached for your consideration and approval is a resolution adopting a 'Zero Waste' guiding principle for the City of Chicopee?

Earlier this year, the Landfill Closure Alternatives Advisory Committee submitted their final report detailing appropriate steps for the City to take in order to mitigate and minimize the financial impact of the impending closure of the Chicopee Sanitary Landfill. At the center of the committee recommendations was a vibrant public education campaign pointing to the need to reduce solid waste, maximize recycling, and increase operational efficiencies. The adoption of a zero waste resolution was recommended as one of the first steps to increase public awareness of the landfill closure issues facing Chicopee.

As a follow-up to the adoption of this resolution, additional committee recommendations must be implemented to achieve the goal of mitigating landfill closure impacts. To that end, bulk waste restrictions and fees will be proposed to the City Council this fall, suggesting an effective date of January 2017. To minimize curbside trash and increase recycling, 35-gallon wheeled carts will be provided to residents to automate our curbside pickup. For those occasions when a weekly 35-gallon cart is not sufficient, 'overflow bags' will be available for purchase. The automated cart program is scheduled for roll-out in May 2017.

The reality is that the landfill closure will result in significant waste disposal cost increases for the City, and the implementation of the landfill advisory committee recommendations will minimize those financial impacts. Most importantly, these actions will allow the residents of Chicopee to continue to enjoy the curbside pickup services for trash, recycling, and yard waste that they have come to expect and appreciate.

Thank you for your anticipated agreement with this resolution and your continued support of our waste reduction and recycling programs.

Very truly yours,

Richard J. Kos
Mayor

CITY OF CHICOPEE

COMMONWEALTH OF MASSACHUSETTS

Resolution

A Resolution Adopting the Zero Waste Guiding Principle and Supporting the Creation of a City-wide Plan for Zero Waste

WHEREAS, the City of Chicopee recognizes and acknowledges that the imminent closure of the landfill, managed by Waste Management and located within the City's limits, will result in both financial and waste management impacts for the City of Chicopee, its residents and businesses;

WHEREAS, the City of Chicopee recognizes and acknowledges the need to restructure and adapt current waste management practices to implement innovative resource management technologies to realize solid waste reductions, increases to recycling, and operational efficiencies;

WHEREAS, the City of Chicopee, with support from the Pioneer Valley Planning Commission (PVPC), has completed an analysis of Landfill Closure Alternatives, documented in the plan, "A Waste Reduction and Resource Management Analysis for the City of Chicopee in anticipation of the closure of its Landfill;"

WHEREAS, the Commonwealth of Massachusetts has committed to Zero Waste with the adoption of the Massachusetts Pathway to Zero Waste Plan in 2012, which aims to reduce solid waste disposal by 30% by 2020 and 80% by 2050;

WHEREAS, the City of Chicopee recognizes the internationally accepted definition of Zero Waste as detailed by the Zero Waste International Alliance as,

"Zero Waste is a goal that is ethical, economical, efficient and visionary, to guide people in changing their lifestyles and practices to emulate sustainable natural cycles, where all discarded materials are designed to become resources for others to use.

Zero Waste means designing and managing products and processes to systematically avoid and eliminate the volume and toxicity of waste and materials, conserve and recover all resources and not burn or bury them.

Implementing Zero Waste will eliminate discharges to land, water or air that are a threat to planetary, human, animal or plant health;"

OFFICE OF THE MAYOR

CITY OF CHICOPEE

COMMONWEALTH OF MASSACHUSETTS

WHEREAS, the City of Chicopee recognizes the environmental and economic benefits of increased materials recovery and the savings, both in costs and resources, of minimizing solid waste disposal;

WHEREAS, the City of Chicopee recognizes its responsibility to establish local criteria needed to eliminate waste, for creating a regulatory and economic environment in which to achieve waste reduction goals, and to lead by example;

WHEREAS, the cost of landfill disposal will continue to increase with no economic value or return;

WHEREAS, the placement of waste materials in disposal facilities wastes natural resources and transfers liabilities to future generations;
WHEREAS, avoiding the creation of waste or discarded materials is the most economically efficient and environmentally sustainable resource management strategy and supports a resource recovery-based economy that is more sustainable than a disposal-based economy; and

WHEREAS, the City of Chicopee recognizes the potential of a recovery-based economy to attract and support industries and jobs in materials recovery, reuse, dismantling, recycling and composting industries to the City and region.

NOW, THEREFORE, BE IT RESOLVED that the City of Chicopee hereby adopts the Zero Waste Guiding Principle as a long-term goal in order to eliminate waste and pollution in the manufacture, use, storage, and recycling of materials. This goal will be achieved through actions and measures that significantly reduce waste and pollution. These measures will include the education and encouragement of residents, businesses and all other entities to judiciously use, reuse, and recycle materials instead of disposing materials following the materials' intended use. Further, these measures include the motivation of businesses to manufacture and market less toxic and more durable, repairable, reusable, recycled, and recyclable products; and

BE IT FURTHER RESOLVED that the City of Chicopee adopts the solid waste reduction goals of 30% by 2020 and 80% by 2050 as adopted by the Commonwealth of Massachusetts through the Massachusetts Pathway to Zero Waste Plan; and

BE IT FURTHER RESOLVED that the City of Chicopee will implement the objectives defined in "A Waste Reduction and Resource Management Analysis for the City of Chicopee in anticipation of the closure of its Landfill," and will develop a Zero Waste Plan to meet the reduction goals stated above.

OFFICE OF THE MAYOR

CITY OF CHICOPEE

COMMONWEALTH OF MASSACHUSETTS

This Resolution shall become effective upon adoption.

IN WITNESS WHEREOF, I have set my hand and caused the Seal of the City of Chicopee to be hereto affixed.

Signed this 2nd day of June 2016.
